Email download link WordPress plugin

Email download link WordPress plugin will send a link to your users after they have submitted a form. i.e. Send email with download link to users after signing up. There are lots of reasons you might want to send a link to your user after they have submitted a form. Am using this plugin to send plugin download link, after user submitted the email address download link will go automatically to entered email address and that link will be expired after 24 hours. Using this plugin i can protect my download links.
